LARGE SQUARE BALER TWINE

Premium High Density Large Square Baler Twine

GOLDSOFT High Density Large Square Baler Twine

GoldSoft is a high density baler twine that combines strength and softness to provide consistent knot performance under all conditions.

At the same time, Goldsoft's lower friction characteristics facilitate increased baling speed and reduced wear on knotters and other baler components.

Goldsoft is the ideal choice for hay producers looking for a top-performing baler twine that is easy on knotters.

For high density bales | Convenient 10kg spool | Improved knot resistance and grip | Low friction characteristics | Reduced wear on baler parts

POPE BULLDOG Large Square Blue Baler Twine

BULLDOG BLUE represents years of development and applied know-how. With enhanced fibrillation during manufacturing and a spool length of 1220m, BULLDOG BLUE is the ideal choice for contractors and hay producers looking for consistent knot performance and long running spools.

Excellent knot performance | UV stabilised | Long running spool | Consistent performance | Trouble-free spooling | Enhanced fibrillation for better knot resistance

Application	Code	Brand	Colour	Length/ Spool	Spool Weight	Spools/ Pack	Knot Resistance	Packs/ Pallet
HD LARGE SQUARE	1100011501	GoldSoft	Gold	1000m	10kg	2	222kgf	40
LARGE SQUARE	1100011502	Pope Bulldog Large Square Blue	Blue	1220m	9.9kg	2	205kgf	40

SMALL SQUARE BALER TWINE

BULLDOG BLUE Small Square Twine

Bulldog blue is available in a compact 1500m spool suitable for all small square balers.

Knot stability and grip | UV protected | Easy feed and soft on knotters | Bright blue

SISAL BINDER TWINE

Sisal is a natural fibre derived from the Agave sisalana plant, a native of southern Mexico. Sisal binder is ideal for more traditional forms of hay production, including binding sheaf hay and some round baler applications, where a natural biodegradable twine is required.

Sisal Binder twine is available in 8 x 812m packs.

Application	Code	Brand	Colour	Length/ Spool	Spool Weight	Spools/ Pack	Knot Resistance	Packs/ Pallet
SMALL SQUARE	1100011503	Pope Bulldog® Standard Square	Blue	1500m	4.7kg	2	75kgf	60
NATURAL FIBRE TWINE	1100011259	Sisal Binder Twine	Natural	812m	N/A	8	N/A	24

BALE NETWRAP

MEGANET bale netwrap has excellent tensile strength, high resistance to tearing, and maximum protection against UV radiation.

Meganet is the best solution for perfect baling and is recognised by farmers and contractors worldwide for its reliable performance, even under the harshest conditions. As a premium bale netwrap, Meganet provides consistent and uniform bale coverage even during fast baling. It is suitable for all crops (straw, silage, corn, pasture, and cereal hay) and works under all weather conditions. Meganet is your best choice for round baling:

Compatible with all popular balers | High breaking strength | Maximum bale coverage | UV stabilised and antistatic treated | End-of-roll warning

NEW MEGANET EL

Meganet EL is an innovation in balenet technology. Featuring double-chain edge stitching, Meganet EL delivers outstanding performance and strength in a lighter balenet.

Does your Netwrap carry the Signum Test DLG approval stamp?

Code	Brand	Colour	Width/Roll	Length/Roll	Rolls/Pallet
1100011271	Meganet	Gold	1.23m	3600m	28
1100011391	Meganet	Gold	1.25m	3600m	28
1100011294	Meganet	Gold	1.30m	3600m	28
1100011295	Meganet EL	Gold	1.25m	3600m	28
1100011296	Meganet EL	Gold	1.30m	3600m	28

SILAGE FILM

Harvest Silage Film

Harvest is a premium European silage film suited to all bale wrap applications. Its formulation and construction provide the perfect oxygen-free ensiling conditions to produce quality silage.

Harvest has the right level of tackiness and elasticity to produce tight silage bales even under extreme conditions. It is UV stabilised for NZ conditions and is the perfect solution for silage producers seeking trouble-free wrapping.

Dark green | UV Stabilised | Superior strength and tack
High oxygen barrier | 70% stretch | Water-resistant
cardboard core

HARVEST Silage Film

Harvest Silage Film Benefits:

- Helps maintain feed nutrition values
- Tighter wrapped bales
- Great barrier protection
- Resistant to dust, water, and climate conditions
- Excellent bale protection
- Puncture and tear-resistant
- Suitable for large square and round bales

POPE BULLDOG™ Silage Film Silage Film is our most price-efficient wrap. Tried and true, Bulldog film is the economical choice designed for use on all wrapping machines. It is UV stabilised and has the right level of tackiness and elasticity.

Pope BULLDOG™ Silage Film Features:

**70% stretch | UV stabilised | Plastic core | Light green
25um**

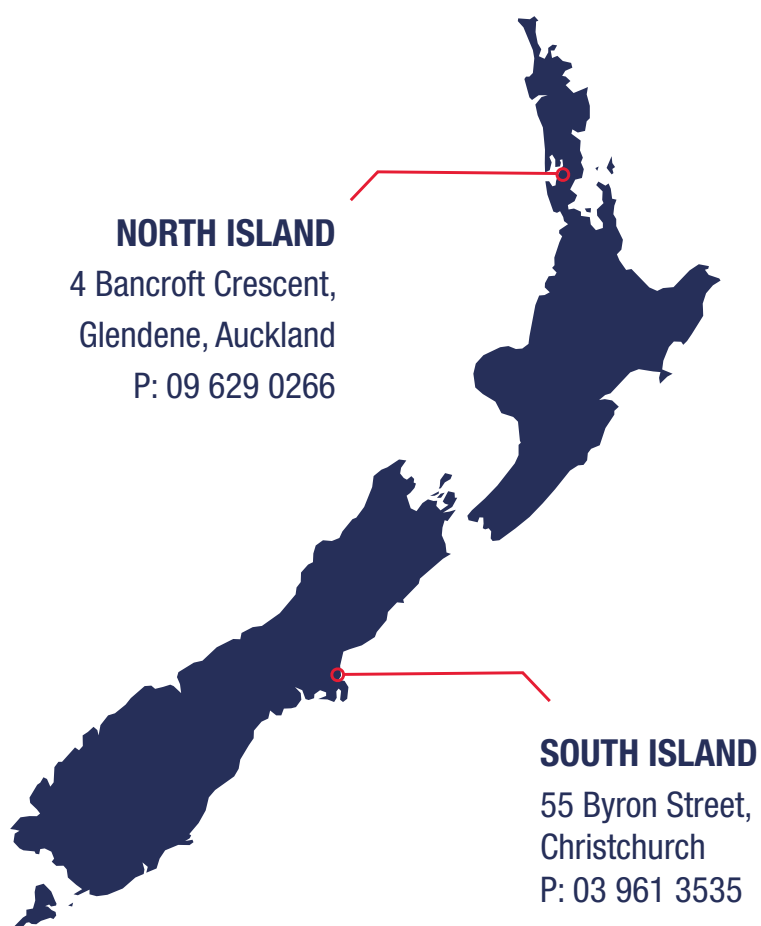

BULLDOG Silage Film
